p2.p			Proof brown red/red, perf.	
p3.i			Proofs exist in (officially 74 different colours and paper colours; all imperf. (Details in a separate section)	

Design: Grandduke of Kajsnode

## Note

The 1964 sheet contains the 8 stamps of the issue in three basically identical double rows. The top section and the bottom section are upright, the centre section is upside down. On closer inspection, the stamps on the sheet show slight plate variations. The most striking example is no. 4.Da1 in the top row. A twig crosses the text at the top of the stamp. The other variations are so slight as to be only visible under magnification.

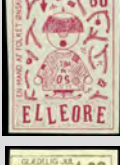

## Perf. Proofs – 2 colours

Imperf. Proofs – 74 variants (according to official sources)

21/12-77
